Subject: Bingley neighbourhood development plan 2025 to 2028

[REDACTED]

For the attention of the planning office,

With reference to the Neighbourhood planning , on the Bingley Neighbourhood development plan;

We are really pleased to see in 11.15.5 the principle of the broad corridors for wildlife , to enable habitat areas to be connected. We feel this this is essential going forward for the increasing urbanization of both Bingley and the surrounding areas.

The woodland running south between Gilstead and Bingley, an area often referred to locally as Gilstead Moor, along with the open access onto the field north west of the Prince of Wales Park (POWP) are critical for ensuring the ability of local deer, badgers, hedgehogs and other local wildlife to safely and freely roam across long established pathways.

Thank you for including this in the development plan, this will help us conserve and promote our newly acquired Local Nature Reserve status and our park.

With best regards,

[REDACTED] Ramsden
Trustee chair, The Friends of the Prince of Wales park, Bingley.
