I object to the Council's decision that Burley in Wharfedale needs to build 700 more homes. I also object to the plan that most of these homes will be built on the green belt, outside the current village. The consistent view of Burley residents is that large developments are not in the interest of the community for a whole host of reasons including infrastructure, education, transport as well as the look and feel of the village.

Para 4.24, and Para. 4.25 of the Neighbourhood Plan states as follows:

4.24 The main issues raised by local people during the consultation were:

- the need for new homes to be spread over several sites, not in one big estate-type development; and
- the lack of affordable homes to buy or rent.
- provision for a growing percentage of elderly residents

4.25 The vision for Burley is to ensure that the village continues to feel focussed around a village centre and avoids sprawl along the main commuter routes to Menston, Otley or Ilkley. This means that new housing should be well integrated into the village, avoiding a single large development that is perceived as a separate place. This will ensure that residents in the new homes feel integrated with the existing community. Dispersing new housing development across a range of sites will help to ensure that these sites are of a size that avoids dominating the local area.

Bradford Council, please respect the views of the people of Burley. We have already views on those SHLAA sites it would like to see developed in preference to others. Refer to Section Two – Building Development of the Appendix 1 – Analysis of Questionnaires

5. Please place an 'X' in the box if you would like to be notified whether the plan proposal is made (adopted) by the Council or not:	x
