
Section 7
Monitoring

Introduction

- 7.1 Monitoring is a key component of the planning system. It reviews the progress of the Local Plan and the impact and effectiveness of its policies. Monitoring of the plan will be recorded in the Annual Monitoring Report (AMR), as indicated in Policy ID1.

Core Strategy Performance Monitoring Framework

- 7.2 Policies in the preceding sections of the plan note their relevant outcomes, indicators and targets, together with the lead roles and mechanisms of delivery, unless the specific policy prescribes a 'process', for example, that will be implemented in another DPD.
- 7.3 The indicators recorded are either 'corporate', where this is monitored as a Council priority; a 'key plan indicator', referenced by the prefix IND; or an 'operational' indicator that is monitored as part of service delivery. Targets are given for all key plan indicators and all these indicators are noted in Table MO1. Corporate and operational indicators are not recorded in Table MO1. The key plan indicators recorded in Table MO1 constitute the performance monitoring framework of the plan.
- 7.4 If monitoring reveals that the targets for the key plan indicators are not being met, the likely causes will be assessed. This in turn may warrant a review of the policy; a review of the Core Strategy or other DPD; or the preparation of other policy guidance. The most appropriate course of action will be determined by the particular circumstances and policy issues involved.
