Dear Andrew

**PLANNING RESPONSE TO THE HEALTH IMPACT ASSESSMENT OF THE CORE STRATEGY FURTHER ENGAGEMENT DRAFT**

Thank-you for your response to our Health Impact Assessment (HIA) of the Core Strategy Further Engagement Draft (CSFED).

We note the changes you have implemented having reviewed our suggested inclusions and we welcome these.

Understandably, there are number of action points we recommend that are beyond the scope of the Core Strategy Publication Draft (CSPD). You suggest that these should be picked up elsewhere, where appropriate, in the Allocations Development Plan Document (DPD) and Area Action Plan DPD's.

We look forward to discussions with you on how our departments can best work together, on these DPD's, particularly on the matters of 'play areas for young children' noted in proposed inclusion 6, and 'social infrastructure', as part of the Local Infrastructure Plan, noted in the response to proposed inclusion 10.

Yours sincerely

**Julia Burrows**  
Consultant in Public Health
