Subject: Tong valley proposed planning

Dear Sir,

I wish to register my objection to the development on green belt at Tong valley.

My reasons are that this is a green belt area and we have very little open spaces left for future generations.

Green belt was introduced to protect these areas. So why are we now eroding them.

I know we need more housing for the future and present generation but I believe there must be better development areas i.e

Closed factories, mills etc.

Yours worryingly

■Carroll
