PART B – YOUR REPRESENTATION - Please use a separate sheet for each representation.

3. To which part of the Plan does this representation relate?

Section	5.3	Paragraph	A	Policy	HO5
---------	-----	-----------	---	--------	-----

4. Do you consider the Plan is:

4 (1). Legally compliant	Yes		No	
4 (2). Sound	Yes		No	X
4 (3). Complies with the Duty to co-operate	Yes		No	

5. Please give details of why you consider the Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate. Please refer to the guidance note and be as precise as possible.

If you wish to support the legal compliance, soundness of the Plan or its compliance with the duty to co-operate, please also use this box to set out your comments.

This policy refers to "delivering the most houses possible while taking into account - nature of the site, its surroundings and given the type and size of housing needed in the area". This is all in the context of a minimum of 30 dwellings per hectare.

Many settlements currently like Menston have a wide range of densities within its boundaries. In some areas a much higher density level may be appropriate and have been successfully achieved recently within the village. There is however other parts of the settlement which currently have very low density and new significantly higher density developments would sit very uncomfortably with these existing local settlement areas.

We consider that Para A needs strengthening to allow new development perhaps at a significantly lower density than 30 houses per an hectare providing it provides the highest possible density while still appropriate to their surroundings.

6. Please set out what modification(s) you consider necessary to make the Plan legally compliant or sound, having regard to the test you have identified at question 5 above where this relates to the soundness. (N.B Please note that any non-compliance with the duty to co-operate is incapable of modification at examination).

You will need to say why this modification will make the Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

HO5 para A requires an acknowledgement that significantly lower and even higher densities than prescribed in Para B may be necessary to ensure new developments sit comfortably within the local surroundings.

Please note your representation should cover succinctly all the information, evidence and supporting information necessary to support/justify the representation and the suggested change, as there will not normally be a subsequent opportunity to make further representations based on the original representation at publication stage. Please be as precise as possible.

After this stage, further submissions will be only at the request of the Inspector, based on the matters and issues he/she identifies for examination.

7. If your representation is seeking a modification to the Plan, do you consider it necessary to participate at the oral part of the examination?

	No, I do not wish to participate at the oral examination
Yes	Yes, I wish to participate at the oral examination

8. If you wish to participate at the oral part of the examination, please outline why you consider this to be necessary:

We can bring local knowledge to support our argument

Please note the Inspector will determine the most appropriate procedure to adopt when considering to hear those who have indicated that they wish to participate at the oral part of the examination.

9. Signature:		Date:	26 March 2014
