**Subject:** Objection - Housing development in Gilstead/Eldwick

I would like to submit my objection regarding more houses being built on land at Lane End Farm, Gilstead and also on the fields down Sheriff Lane/Lode Pit Lane, Eldwick and also further down Sheriff Lane towards the Broadstones caravan park.

At the moment there is extensive building work and disruption taking place in the only remaining piece of green land in the Swan estate. This was a much loved green area which has been lost to yet more houses/apartments.

It is simply ridiculous to keep building and building on these lovely green fields. We just do not have the amenities to cope with the additional population that would live in these areas. The surrounding roads - Warren Lane, Otley Road, Gilstead Lane, Sheriff Lane are already choked with traffic.

I wish to lodge my objection so that these beautiful green fields can be left alone. Gilstead and Eldwick have had too many houses built on green fields already! The area cannot support additional residents that will be a further drain on local amenities.

Regards.
