4 (1). Legally compliant	Yes	<input type="text"/>	No	<input type="text"/>

SOUND

As a member of a local riding school I have serious concerns that issues related to increased traffic generated by the proposed development will affect the recreational activities of horse riders and other organisations using this area for social and recreational pursuits.

The roads are narrow and unsuitable to handle increased traffic movements.

The effect of the destruction of Green Belt has not been viewed as a concern or even an issue in the papers I have read.

I am not satisfied that the care of Green Belt has been considered adequately and that the subsequent depletion of the green areas between Bradford and Leeds suggested by this plan are contrary to maintaining green areas and will act as a catalyst for urban sprawl.

The whole development area proposed by this incursion into the Green Belt will affect a large number of people who use the area as intended "to breathe in green space".

Proposed development will restrict the access to Public Bridleways.

DUTY TO COOPERATE

I cannot see any information in the files viewed that in depth consultation has taken place between Bradford and Leeds Authorities to agree safeguarding of the green belt or the effect of the two areas merging in terms of manmade development.

Flood issues are a problem in Fulneck and Troydale valley already and top water from the proposed development can only worsen the situation. As a member of a horse-riding group that has to

negotiate a ford across the stream in Fulneck valley I have specific concerns regarding the increase water flows and the health and safety aspects associated with it.

I cannot see any details in the Plan/documents where cooperation with Water Authorities has been carried out or any assessment of risks that increase water flow levels would bring.

6. **Please set out what modification(s) you consider necessary to make the Plan legally compliant or sound, having regard to the test you have identified at question 5 above where this relates to the soundness. (N.B Please note that any non-compliance with the duty to co-operate is incapable of modification at examination).**

You will need to say why this modification will make the Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

The whole plan should be reviewed and appropriate consultations take place. Review of Green Belt policy should be made and applied to this Development Plan.

Information from associated agencies including Water Authority and adjacent Local Councils should be evidenced within the documentation.

Please note your representation should cover succinctly all the information, evidence and supporting information necessary to support/justify the representation and the suggested change, as there will not normally be a subsequent opportunity to make further representations based on the original representation at publication stage.

Please be as precise as possible.

After this stage, further submissions will be only at the request of the Inspector, based on the matters and issues he/she identifies for examination.

7. If your representation is seeking a modification to the Plan, do you consider it necessary to participate at the oral part of the examination?

NO

No, I do not wish to participate at the oral examination

Yes, I wish to participate at the oral examination

8. If you wish to participate at the oral part of the examination, please outline why you consider this to be necessary:

Please note the Inspector will determine the most appropriate procedure to adopt when considering to hear those who have indicated that they wish to participate at the oral part of the examination.
