PART B – YOUR REPRESENTATION - Please use a separate sheet for each representation.

3. To which part of the Plan does this representation relate?

Section	<input type="text"/>	Paragraph	<input type="text"/>	Policy	<input type="text" value="Policy HO4"/>
---------	----------------------	-----------	----------------------	--------	---

4. Do you consider the Plan is:

4 (1). Legally compliant	Yes	<input type="text"/>	No	<input type="text"/>
4 (2). Sound	Yes	<input type="text" value="x"/>	No	<input type="text"/>
4 (3). Complies with the Duty to co-operate	Yes	<input type="text"/>	No	<input type="text"/>

5. Please give details of why you consider the Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate. Please refer to the guidance note and be as precise as possible.

If you wish to support the legal compliance, soundness of the Plan or its compliance with the duty to co-operate, please also use this box to set out your comments.

We strongly support Policy HO4 on the basis that a clear phasing mechanism is absolutely critical to the effectiveness and soundness of the plan.

CPRE is currently developing more detailed work on the importance of phasing, and YGA will seek to feed this into the Core Strategy process later, in particular at the Public Examination. In the meantime, we will summarise the main reasons why we consider phasing to be so important:

- 1) It enables the local authority to focus development on the available sites that are most suited to implementing spatial objectives;
- 2) It enables the local authority to allocate development sites that are less suited to the spatial objectives on the basis that they need only be released for development if the more suitable sites are becoming fully developed;
- 3) It avoids development being spread thinly across too many sites at any given time, such that provision of infrastructure and amenities can be better delivered and more suitable sites are delivered more quickly;
- 4) It enables the overall supply of housing land to be monitored and managed effectively to adjust for changes in the market and to bring forward alternative sites (eg windfall sites) that offer better sustainability than some of the later phase allocated sites.

6. Please set out what modification(s) you consider necessary to make the Plan legally compliant or sound, having regard to the test you have identified at question 5 above where this relates to the soundness. (N.B Please note that any non-compliance with the duty to co-operate is incapable of modification at examination).

You will need to say why this modification will make the Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

Please note your representation should cover succinctly all the information, evidence and supporting information necessary to support/justify the representation and the suggested change, as there will not normally be a subsequent opportunity to make further representations based on the original representation at publication stage. Please be as precise as possible.

After this stage, further submissions will be only at the request of the Inspector, based on the matters and issues he/she identifies for examination.

7. If your representation is seeking a modification to the Plan, do you consider it necessary to participate at the oral part of the examination?

	No, I do not wish to participate at the oral examination
x	Yes, I wish to participate at the oral examination

8. If you wish to participate at the oral part of the examination, please outline why you consider this to be necessary:

To further represent the views and concerns of the Yorkshire Greenspace Alliance in the light of all parties' consultation responses and the questions posed by the Inspector.

Please note the Inspector will determine the most appropriate procedure to adopt when considering to hear those who have indicated that they wish to participate at the oral part of the examination.
