I wish to object to the proposed building of 800 new houses in Ilkley my reasons are

- 1 Lack of schools
- 2 ? sewerage capacity
- 3 Road congestion
- 4 Due to cuts police and fire services have been reduced
- 5 Increase usage on all health services
- 6 Refuse disposal

I feel many lessons should have been learnt after the flooding in the south of the country
As much of the land to be built on is already wet and floods

Yours truly,
