Dear Sir/Madam,

RE:Core Strategy Draft (Regulation 18 & 19)

Whilst I do not have details in front of me regarding traffic pollution and road systems.I write to object that building would take place on fields that at the moment produce food,at this time sheep with their lambs are feeding,and I feel that as we destruct this necessary part of our development we are putting our independence and survival in the hands of other nations.

Yours faithfully,

H.ELVET
