**What do they make you think of?**

# Key Terminology

## Extremism

**The vocal or active opposition to Fundamental British Values**, including democracy, the rule of law, individual liberty, and respect and tolerance for different faiths and beliefs.

## Radicalisation

**The processes** by which a person adopts extremist views or practices to the point of legitimising the use of violence.

## Terrorism

**A violent action or threat** intended to influence the government or intimidate the public. Its purpose is to advance a political, religious or ideological cause.

# Current UK Threat Level

The National Threat Level is still **substantial**, meaning that a terrorist attack is likely.

# What is Prevent?

Prevent aims to protect communities from the threat of terrorism by addressing the root causes of radicalization to prevent individuals from being drawn into terrorism.

Prevent works across all forms of terrorism, including both Extreme Right-Wing and Daesh inspired terrorism.

The program is delivered by a network of partners, including local authorities, the police, civil society organizations, and community groups. Prevent gets in early, offering support and guidance for individuals at risk of radicalization, and works to strengthen community resilience to challenge extremism.

We tackle the ideological causes of terrorism, get in early to support individuals susceptible to radicalization, help disengage and rehabilitate those already involved in terrorism.

- Experiencing racism, bullying or discrimination
- Family issues
- Feeling left behind

### **EXTERNAL**

- This table may be a useful tool for parents/carers to look out for some of the Sinister Emojis young people may use. The guide is intended to:
- Raise awareness about online harm. The creators and supporters of the guide sought to highlight how young people might be exposed to harmful ideologies and behaviors online.
- Help parents navigate digital communication. Many parents report feeling “out of their depth” with online slang and coded language used by their children. The guide is presented as a resource to help close this knowledge gap and encourage open conversations.
- Decipher covert communications. The creator explained that emojis and acronyms are used to hide dangerous topics from parental supervision, including conversations about drugs, sexual activity, and extremist ideologies.
